

California Environmental Health Association **55th Annual Educational Symposium**

*Crowne Plaza Anaheim Resort
Anaheim, California*

May 8 - 12, 2006

STUDENT FORUM

Unique opportunity for individuals considering environmental health as a career

The California Environmental Health Association is proud to sponsor a student forum at the Annual Educational Symposium at the Crowne Plaza Anaheim Resort. Representatives from both public and private sectors will discuss their daily activities, as well as what motivates and inspires them. This forum will provide students considering their career options, with an opportunity to understand the practice of environmental health by hearing from working professionals. Audience participation will be encouraged during an extended question and answer period.

Presentations by a variety of speakers on emerging issues regarding the following subjects are open to student participants at the Symposium:

- Food Protection
- Recreational Health
- International Health
- Disaster Preparedness
- Drinking Water

This conference will provide a friendly environment for students interested in the field of Environmental Health. Students can hear first hand experiences from Environmental Health professionals, network with Registered Environmental Health Specialists from all over California, and develop valuable contacts.

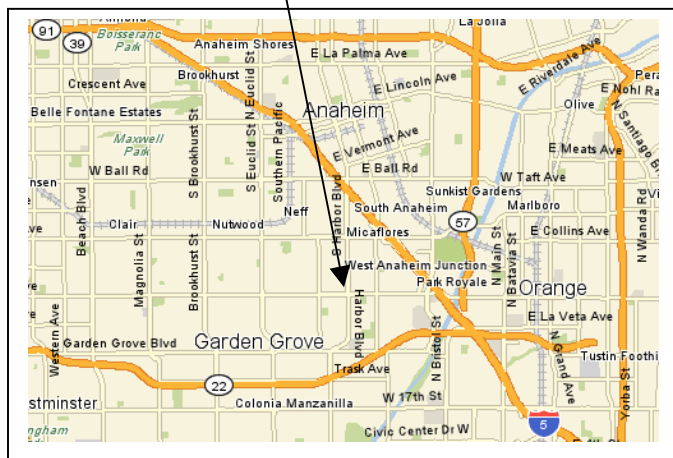

Date: Wednesday, May 10, 2006

Fee: \$20.00

Student Forum: 9:00 am to 11:50 am

Informational Sessions: 1:30 pm to 4:20 pm
